Last record at Lufthansa Technik: removed from ESN 962858 with engine TTH 18637 TTC 12800 and part TTH 18637 TTC 12800

The documentation above is true and accurate to the best of our knowledge based on information provided to LHT by former operators and Lufthansa Technik's time tracking department, which is doing the time tracking of LLP on behalf of Deutsche Lufthansa.
The history of the specified part has been checked at entry into DLH/LHT responsibility.
Lifetime and movement history of the part have been traced by the responsible department and have been kept accurate all the time.
The part was not operated in military application and no incidents or accidents have been reported.

On behalf of

USER/INSTALLER RESPONSIBILITIES

Note: This certificate does not automatically constitute authority to install the item(s).

Where the user/installer performs work in accordance with regulations of an airworthiness authority different from the airworthiness authority specified in block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts items from the airworthiness authority specified in block 1.

Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

LHT Form 31160 E-12 (HAM TQ3)

AUTHORIZED RELEASE CERTIFICATE / AIRWORTHINESS APPROVAL TAG

USER / INSTALLER RESPONSIBILITIES

1) It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.
2) Where the user/installer works in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in block 1 it is essential that the user/installer ensures that his/her Airworthiness Authority accepts parts/components/assemblies from the Airworthiness Authority of the country specified in block 1.
3) Statement 14 and 15 do not constitute installation certification. In all cases the aircraft maintenance record must contain an installation certification issued in accordance with the national regulation by the user/installer before the aircraft may be flown.

Date: 12th September 2019
Our Ref: 2432KIL

To Whom It May Concern:

Subject: ESN 962858 Non-Incident / Non-Accident Statement

Engine Model: CFM56-7B
Engine Serial Number: 962858
Engine TSN: 18,637:16
Engine CSN: 12,800

This letter is to certify that the above referenced Engine and each of their associated components were operated by FlyerTech Ltd from April 26, 2019 to September 12, 2019. During that period of time the above referenced equipment:

a) Has not been involved in any incident or accident (as defined in I.C.A.O. Annex 13, Paragraph B) or subjected to severe impact, stress, heat or fire;

b) Has not been operated by or obtained from any governmental or military entities;

c) Has not had installed any parts acquired from any government or military source;

d) Has not been immersed in salt water or otherwise exposed to corrosive agents outside normal operation;

e) Does not have nor, has had any Parts Manufacturer Approval (PMA) Parts or non-Type Certificate Holder (TCH) Repaired Parts installed;

f) The Engine does not have nor, has had any, Critical Influencing Parts installed affecting any Life Limited Parts, which were / are PMA parts other than those authorized by the TCH, and or Original Engine Manufacturer (OEM); and

g) The Engine does not have nor has had any Critical Influencing Parts installed that were / are non-TCH Repaired parts other than those authorized by the TCH and or Engine Manufacturer (no repairs outside the OEM manuals).

Yours faithfully,

Khim Ijam

I hereby certify that, to the best of my knowledge, during the period stated above: (1.) Neither the aircraft, nor any part installed have been; (a.) damaged during, or identified as the root cause of a reportable incident or accident as defined by Annex 13 to the Chicago Convention, or (b.) subjected to severe stress or heat (such as in a major engine failure, accident, or fire) or has been submersed in salt water, unless its airworthiness status was re-established by an approved maintenance organisation in accordance with the instructions of the type certificate holder and/or supplemental type certificate holder and/or OEM of the part, and supported by an authorised airworthiness release certificate. (2.) No part has been installed on the aircraft which was obtained from a military source or was previously fitted to a state aircraft as deemed by Article 3 of the Chicago Convention.

I hereby certify that, to the best of my knowledge, during the period stated above: (1.) Neither the aircraft, nor any part installed have been; (a.) damaged during, or identified as the root cause of a reportable incident or accident as defined by Annex 13 to the Chicago Convention, or (b.) subjected to severe stress or heat (such as in a major engine failure, accident, or fire) or has been submersed in salt water, unless its airworthiness status was re-established by an approved maintenance organisation in accordance with the instructions of the type certificate holder and/or supplemental type certificate holder and/or OEM of the part, and supported by an authorised airworthiness release certificate. (2.) No part has been installed on the aircraft which was obtained from a military source or was previously fitted to a state aircraft as deemed by Article 3 of the Chicago Convention.

AS of 11th JUNE 2019

Please return a fully completed copy of this form to operations@sixwest.ie along with a fully completed copy of the datasheet and OFP for each sector in addition to the pilot pre-flight confirmation form and duty log included with the flight plan package.

NON INCIDENT STATEMENT

This statement certifies that Engine Model CFM56-7B Serial Number 962858 (TSN: 18626 / CSN: 12798) has operated in the Jet Airways from 08-JUN-2013 to 13-Apr-2019 as follows:

A/C REGN	OPERATIONAL TIME PERIOD	
	FROM	TO
VT-JFJ	08-Jun-2013	12-Aug-2013
VT-JFJ	01-Mar-2014	11-Nov-2014
VT-JFH	15-Nov-2014	21-Feb-2019
VT-JGU	18-Feb-2019	12-Apr-2019
VT-JBC	13-Apr-2019	13-Apr-2019

A review of the maintenance records for the engine has been completed, and to the best of my knowledge and based solely upon such review, during the period of operation set forth above,

I hereby certify that:

1. Neither the Engine, nor any part installed have been;
   a. damaged during, or identified as the root cause of, any serious Incident or Accident as defined by ICAO Annex 13, or
   b. subjected to severe stress or heat (such as in a major engine failure, accident, or fire) or has been submersed in salt water or otherwise exposed to corrosive agents outside of normal operation and maintenance,
   c. altered without approval of the OEM from its original approved type certificate and has not been altered in type design

   Unless its airworthiness status was re-established by an approved maintenance organisation in accordance with the instructions of the type certificate holder and/or supplemental type certificate holder and/or OEM of the part, and supported by an authorised airworthiness release certificate.

2. No part has been installed on the Engine which was obtained from a military source or was previously fitted to a state aircraft as deemed by Article 3 of the Chicago Convention.

This statement is not intended to identify or indicate, or warrant, the serviceability status of the assembly of the engine or any of the attached and/or included parts thereof.
